# Some interesting facts...

- There is an award for most students - there are over \$50 million in entrance scholarships available
- You don't need to have high marks - most awards (83%) do not require an academic average at all
- You don't need to be in financial need - only 26% of the awards in most databases require you to be in financial need
- Keep searching throughout the year - awards have deadlines throughout the year (19% of the awards have a deadline in June ... 1% in December)
- You can't win an award if you don't try - many awards have few applications
- Get involved in your community - over 10% of all awards require some school or community service
- Look beyond colleges and universities for awards - there are over 1,000 award providers; the majority of which are companies, associations and other non-educational organizations
