Required and Recommended Course Pre-Requisites

Many courses in the Math, Science and English course groups require a pre-requisite for example:

- English 10 requires a pass in English 9
- Pre-Calculus 110 requires a pass in Foundations of Math 110.

Other courses will come with a recommendation from admin/guidance/subject leaders – this represents our best advice for the skills required to see success in these courses. For example Physics 11 should be taken after Number Relations and Functions 10.
