GRAD 2027 – What's next?????

What's next?

- College?
- Military?
- University?
- Workforce?
- Apprenticeship?

The Heavy FEELING in the room: I have no idea what I want to Do for a Career

- **You are not alone.** There are many options, and you are still learning about yourself.
- Now IS time to explore though. Here are some starting points:
 - My Blueprint <https://myblueprint.ca/>
 - Quizzes on canada.ca (<https://www.jobbank.gc.ca/career-planning/quizzes;jsessionid=E9B00234391736991045D85601498340.jobsearch76>)
 - Questioning a certain career? Ask people in your community to job shadow for a day!
 - Focus on your interests and strengths as your starting point...not just \$\$\$
 - Look at labour market outlook reports (i.e., www.nbjobs.ca)

Post-Secondary Plans

- Step one: Go online! Look at schools/programs that interest you.
- Verify that you have the admission requirements (use caution – not all are the same!)
- Many schools have early admission; admission deadlines vary by school.
- NBCC Admission is first come, first served, so **apply early** – grades are not what they look at first when making decisions.
- Universities mostly look at grades – especially competitive programs, like nursing and engineering. Your grades need to be top notch.

*Remember that your admission average is calculated from the courses required for the program (admission requirements) not your overall average

Most schools have applications online

From website, create a student profile to complete a basic application (and upload additional files if necessary)

All schools charge an application fee (this varies from \$40-\$100) which can be paid online. Some are offering free applications if you do a virtual tour.

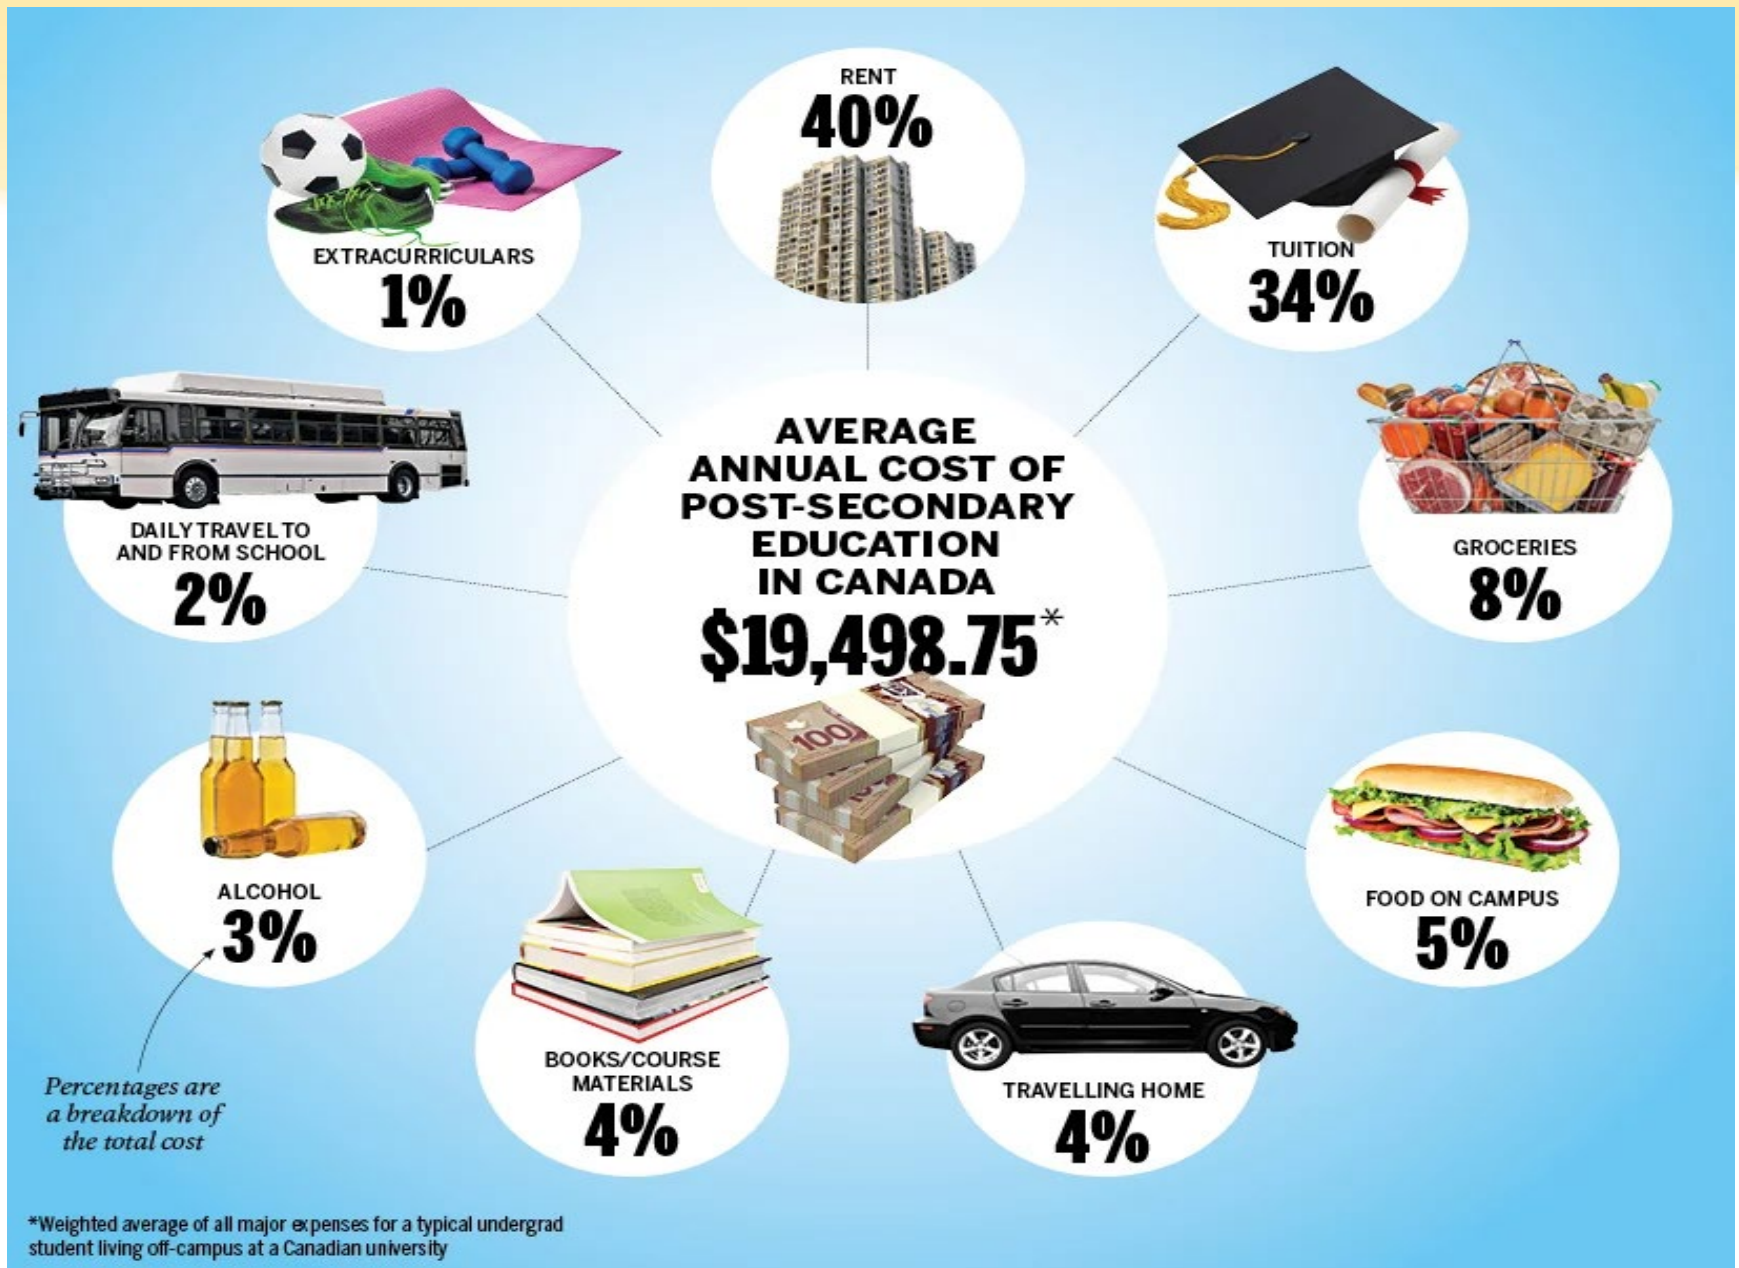

The application is not considered complete until you send your official transcript again IN JUNE!!

Ontario School Applications go through Ontario Universities Application Centre (OUAC)

US Schools – SATs (specific testing dates), Common Application

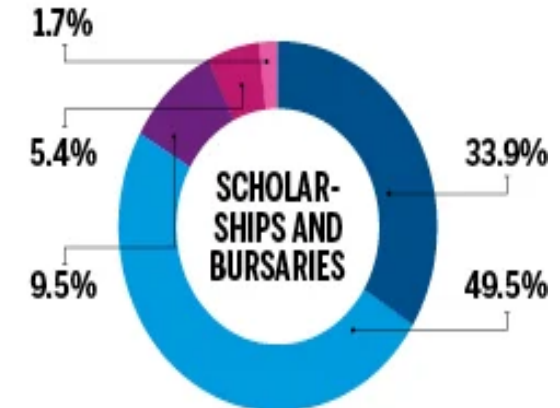

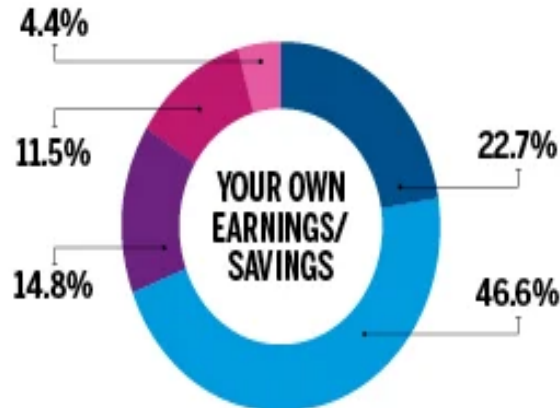

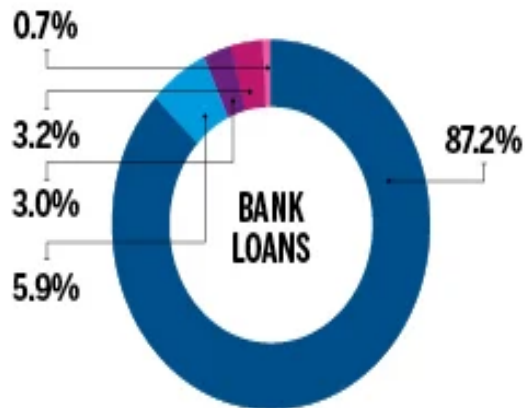

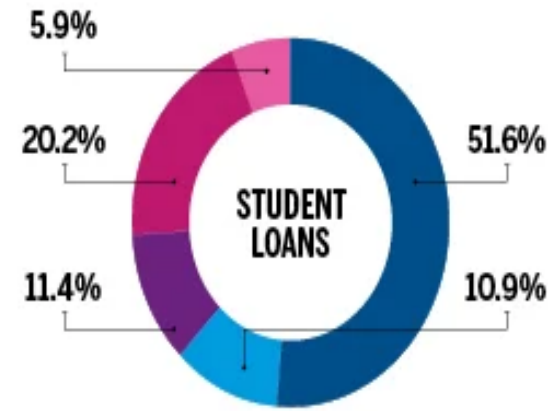

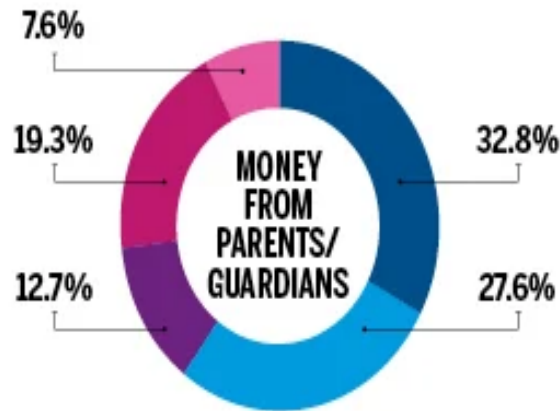

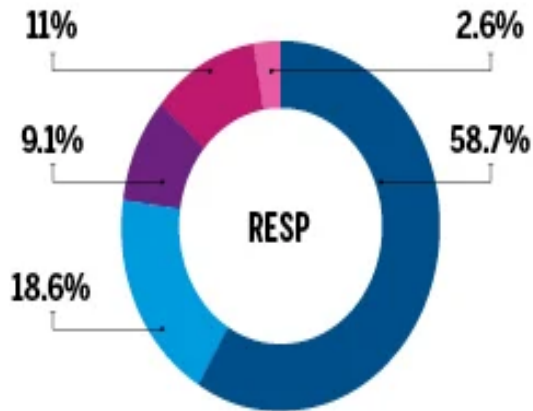

How
Do I
Apply?

Is it worth it??

So is an education worth it? According to Stats Canada it is. Over the span of your career, those who get a post-bachelor education will make \$1.3 million more than those who don't finish high school (that's more than double).

Some interesting facts...

- There is an award for most students - there are over \$50 million in entrance scholarships available
- You don't need to have high marks - most awards (83%) do not require an academic average at all
- You don't need to be in financial need - only 26% of the awards in most databases require you to be in financial need
- Keep searching throughout the year - awards have deadlines throughout the year (19% of the awards have a deadline in June ... 1% in December)
- You can't win an award if you don't try - many awards have few applications
- Get involved in your community - over 10% of all awards require some school or community service
- Look beyond colleges and universities for awards - there are over 1,000 award providers; the majority of which are companies, associations and other non-educational organizations
